Siddha Pines silver 2 flat no- 604 Rajarhat main road Kolkata-700136,9836252598, isha.agarwal.2023@sse.ac.in

Career Objective

I am looking forward to career in data analytics, where I have strong skills in data analysis, statistical modelling, and data visualization and a knowledge of programming languages such as Python, R, SQL, and Tableau. I am self-motivated, goal oriented and thrive in dynamic environments. I am keen to contribute towards

Education

M.Sc. Economics (Data Analytics)   *expected* **2025**
Symbiosis School of Economics
Symbiosis International University, Pune

B.Sc. in Economics (Hons)   **2023**
The Heritage College, Kolkata
University of Calcutta; graduated with 8.101 G.P.A.

Certification

SQL (Basic) & SQL(Intermediate) Certificate - Hacker Rank

Associate SQL certificate - Data Camp

Advanced Google Analytics certificate

Google Analytics for Beginners certificate

Accenture North America - Data Analytics and Visualization Job Simulation – Forage

PwC Switzerland - Power BI Job Simulation – Forage

Tata Group - Data Visualisation: Empowering Business with Effective Insights Job Simulation - Forage

Data Analyst in Tableau certificate – Data Camp

Internships

Gainwell Commosales Private Limited, Kolkata   **May 15 to July 14 2024**
My internship training program was on transfer pricing- inter group transaction reporting system. I assist in the preparation of transfer pricing documentation and help in analysing this data to ensure that inter-group transactions are priced according to transfer pricing guidelines.

Academic Projects & Achievements

"A country level analysis of impact of SDGs on income in Sri Lanka," The objective of this project was to explain the impact of Sustainable Development Goals on GNI per capita in Sri Lanka. Data was collected from the world Bank database and had to run a basic OLS regression with the help of Stata to explain the impact of your Sustainable Development Goals on GNI per capita of Sri Lanka.

"Analysis of Inflation Data." The objective of this study was to do a comparative analysis of inflation in Australia by analyzing 3 inflation series- Energy Consumer Price Inflation, Food Consumer Price Inflation and Consumer Price Inflation by using the World Bank Data and represent the data using relevant charts and graphs. The project also focused on the descriptive statistics of the dataset derived and how the inflation series were correlated with each other determined by Stata.

Other Skills

- Technical: Proficient with R, Excel, Power point, acquainted in SQL, Stata, Java, Python Power BI, Tableau

Extra-Curricular Activities & Achievements

- Participate in inter-department cricket and basketball tournament and won as a winner team.
- Participate in inter-college cricket and handball tournament and won as a winner team.
- Participated in dance performance for college cultural events
